polo

The Polo series features a solid maple frame and a molded maple ply seat, which is available in all wood, upholstered, and webbed versions using our selection of standard webbing or your COM. Seat pan styles are interchangeable to change the look over time. Custom webbing with large orders and non-standard, post-industrial colors may be used based on availability. Choose from our ample selection of wood finishes with pre-catalyzed lacquer clear coat or water based clear coat option. All finishes are formaldehyde free. Custom finishes are available.

Bar and counter height chairs feature a low back style and are available with an optional brushed aluminum footrest cover.
